Robert Harold Oster

B. S., M. S., Ph. D.

PROFESSOR of PHYSIOLOGY

Graduating classes have traditionally enjoyed many privileges. Perhaps the most important of these privileges is the opportunity afforded the graduates to give expression, both collectively and individually, to their feelings of appreciation and gratitude to the faculty of the B.C.D.S. for their patience, their kindness, and their tireless efforts during the past four years.

To Dr. Robert Harold Oster, able scientist and teacher, who well exemplifies the finest traditions of the faculty, in grateful acknowledgement of his personal interest and sympathetic understanding, this yearbook is respectfully dedicated by the Class of 1958.

In Memoriam

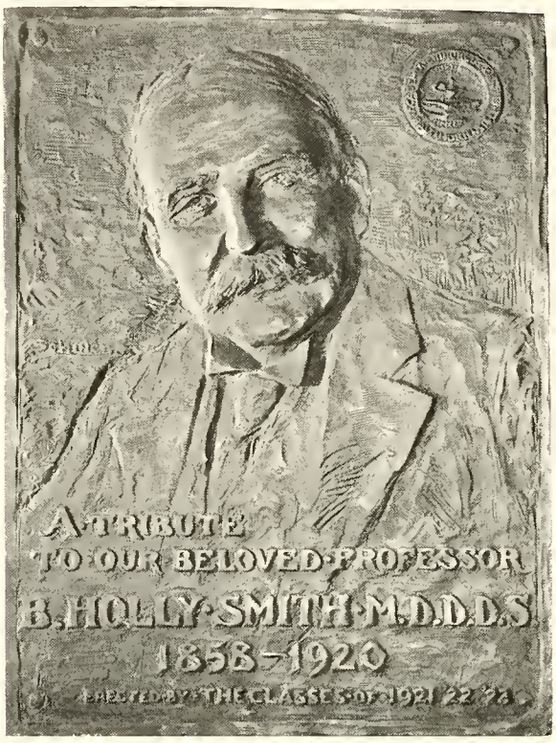
Dr. Benjamin Anthony Dabrowski

Dr. Benjamin Anthony Dabrowski, of Baltimore, died on April 28, 1957. Dr. Dabrowski was born in Baltimore on January 18, 1910. After graduating from Baltimore City College, he attended Johns Hopkins University where he received his predental training. He entered the Baltimore College of Dental Surgery several years after graduating from Johns Hopkins in 1932 with an A. B. degree. Dr. Dabrowski was an active member of Psi Omega Dental Fraternity, being its treasurer during his senior year. During that same year, his classmates elected him Class President. Upon graduation from the Baltimore College of Dental Surgery in 1940, he was awarded the Gold Medal for Scholarship, selected for Omicron Kappa Upsilon, given an honor certificate *(Magna Cum Laude)*, and presented with the Alexander H. Paterson Medal for excellence in prosthetics. Following graduation, Dr. Dabrowski established a general practice in the Medical Arts Building, where he practiced until his death. In 1940, he was appointed a Fellow at his alma mater. He became an instructor in Rentgenology the following year. In 1947, he was an essayist in the American Dental Association meeting. The American Association of Oral Roentgenologists esteemed him as an active member of their group. He was made Associate Professor of Oral Roentgenology at the Baltimore College of Dental Surgery in 1952. His lectures on Roentgenology to the students of the Baltimore College of Dental Surgery were more than ample. He was an excellent instructor, taking special care that his students understood his material. On the day of his funeral, the school was closed in his memory so that instructors and students could attend the ceremony. Dr. Dabrowski is survived by his wife, Mrs. Ann Gurbelski Dabrowski; his two children, Bernard A. and Clara Ann Dabrowski; and two sisters, Mrs. Josephine Jagielski and Mrs. Pearl Spedden.

Distinguished Graduates

B. HOLLY SMITH

(This is the seventh in a series.)



There is a bronze tablet in the Library of the University of Maryland Dental School dedicated to the memory of Dr. B. Holly Smith, a distinguished graduate and an illustrious member of the dental profession.

Dr. Smith was born the son of the Reverend and Mrs. B. H. Smith on March 17, 1858, in Piscataway, Maryland. He attended the Loudon Valley Academy in Virginia. Dr. Smith completed his education in Baltimore schools, receiving his D. D. S. degree from the Baltimore College of Dental Surgery in 1881 and an M. D. degree from the College of Physicians and Surgeons in 1883.

At his alma mater Dr. Smith was a Demonstrator of Anatomy and Materia Medica and later Professor of Operative Dentistry and Oral Surgery. He also served as Professor of Dental Surgery as Applied to Medicine at the College of Physicians and Surgeons.

Dr. Smith was a prolific contributor to dental literature. Among his more important dissertations were *The Etiology of Dental Caries,* which was given at the Sixth International Dental Congress in London in 1914; *Our Mission and How Shall We Discharge It?,* at the National Dental Association Meeting in 1898; *Critical Review of Some Changes in the Teaching and Practice of Dentistry,* given before the Indiana State Dental Society meeting of 1903; *Success in Dentistry,* at the Pennsylvania State Dental Society meeting in 1904; and *Aristocracy in Dentistry,* published in 1912.

Because of his profound interest in the betterment of the embryonic profession of dentistry and his innate ability to organize and lead his colleagues Dr. Smith became a pillar of many dental societies. He was an honorary member of the New Jersey, Pennsylvania, Texas, Georgia, North Carolina and District of Columbia Dental Societies. Dr. Smith served as a Delegate to the International Dental Congress in Stockholm in 1894, Vice-president and Chairman of the Reception Committee of the Lewis and Clark Dental Congress at St. Louis in 1904, and First Vice-president of the Jamestown Dental Convention in 1907.

Dr. Smith served as President of the National Dental Association, Southern Dental Association, Maryland State Dental Association, and National Association of Dental Faculties. At the meeting in 1897 in which the National Dental Association and the Southern Dental Association united to form the American Dental Association Dr. Smith was elected Vice-president of the Southern Division. Because of his profound interest in dental education Dr. Smith was elected Secretary of the National Association of Dental Faculties.

Dr. Smith was a member of Delta Sigma Delta Fraternity and a Fellow of the American Academy of Dental Science. Because of his sincere interest in the international exchange of thought he was extremely active in the Federation Dentaire Internationale.

The multifaceted career of Dr. B. Holly Smith ended with his death in Baltimore, Maryland on January 22, 1920. The dental profession can indeed feel fortunate that such men as Dr. Smith have forged its destiny with personal sacrifice and energy.

Silver Anniversary

This year marks the twenty-fifth anniversary of two of our faculty members and two of our administrative personnel. The *Mirror* extends thanks and appreciation to these individuals for their loyal service over the years.

EDWARD C. DOBBS, D. D. S.

Born in Holyoke, Massachusetts, Dr. Dobbs received a B. S. degree from the University of Maryland. After graduating in 1929 from the Baltimore College of Dental Surgery, he studied for two years as a Rockefeller Fellow in Biochemistry and Pharmacology at the University of Rochester School of Medicine. Since 1932 Professor Dobbs has been Head of the Department of Pharmacology and Therapeutics at his alma mater. In addition to his teaching Dr. Dobbs' professional activities have included a private practice; authorship of a textbook and journal articles; and research, especially in the field of anesthesia.

MISS MARY HAGEN

A native of Baltimore, Miss Hagen came to the Orthodontic Clinic in 1932. She completed her studies at St. Andrew's Business School. Her experience in the business world has also been supplemented by courses of study at Johns Hopkins University and Loyola College Evening School. Miss Hagen's secretarial abilities contribute well to the efficient operation of the Orthodontic Clinic. Among her hobbies, Miss Hagen considers travel as one of her most enjoyable; and she recalls a memorable trip to Europe in 1949 which culminated in an audience with Pope Pius XII at Castelgandolfo.

MISS BEATRICE MARRIOTT, A. B.

A native of Baltimore, Miss Marriott received her education in local institutions including Friends School, Johns Hopkins University, and the University of Maryland, from which she received an A. B. degree. In 1932 she came to the University of Maryland Dental and Pharmacy Schools Library. In the capacity of assistant librarian Miss Marriott has helped many classes of students. In addition to her usual duties she has served on the Medical Library Survey Committee, was actively engaged in the American Red Cross during World War II, and has proofread copy for medical periodicals.

WILLIAM E. HAHN, D. D. S.

A native of Maryland, Dr. Hahn received an A. B. degree from the University of Rochester. He received an M. S. in Anatomy as a Carnegie Foundation Fellow at Rochester University School of Medicine. He graduated from the Baltimore College of Dental Surgery in 1931. Since 1933 Professor Hahn has been teaching at the B.C.D.S. He is Head of the Department of Anatomy. Dr. Hahn's professional activities have included a specialty practice in Oral Surgery, publications in the field of dental literature, and numerous chairmanships on administrative committees at the Dental School.

SAINT APOLLONIA

During the celebration of the millenary of the Roman Empire, in the reign of Decius, a persecution of the Christian subjects was instigated by a prophet who foretold the advent of a dire calamity, which was to be the result of the treacherous scheming of the Christian sect who worshipped a God other than the Roman deities. Apollonia of Alexandria was among the victims of the many outbreaks of fanatical passion and prejudice which were fostered by the Roman authorities through their stern policy of demanding allegiance to the pagan gods. Brought to trial Apollonia was ordered to renounce her faith in God and offer adoration to the pagan idols whom she had long ago renounced. When she spurned the royal edict with contempt, the executors of the imperial will directed that she be tortured.

The basic facts of Apollonia's martydom are given in a letter written by Saint Dionysius to Bishop Fabius: "A notable case was that of the aged virgin Apollonia, whom they seized and knocked out her teeth, striking her on the jaws; then they made a pyre before the city and threatened to burn her alive, if she would not join them in uttering blasphemies. But she asked for a brief respite, and being let go, suddenly lept into the fire and was devoured by the flames."

Five years ago we desired more than anything else to become dental students—this was considered the ultimate achievement. Having attained it, we looked amid never-ceasing anxiousness to the passing of each academic year. At present, successful completion of requirements for graduation, followed by state boards, is uppermost in our minds. It is good always to be looking forward, for thus life has purpose.

We eagerly anticipate the autonomy and independence of private practice. Some of us will experience this shortly after graduation, but most of us will be engaged in internships, Armed Forces dental programs, and graduate study. However, the most important thing of all is that we shall reap the reward of long years of learning: we shall bear the title of "Doctor" with its privileges, immunities, and responsibilities.

We move into the active conduct of our profession with confidence resulting from thorough training in basic fundamental concepts. Possessing this educational foundation, we shall be able to evaluate modern developments in dental techniques, and either adapt to them or reject them.

Finally we wish to extend sincerest thanks to the members of our faculty for their guidance and patience, and deepest appreciation to our families for having undergone varying degrees of hardship so that we could pursue our course of study.

HONORARY PRESIDENT

OF THE

Class of 1958

DR. YAM-HIN LOUIE

The recognition of a member of the faculty as the honorary president of the Senior Class is, perhaps, one of the more trying and pleasurable duties of the class. The pleasure comes from being able to show our sincere appreciation of his help, good advice, and professional ability. The task is somewhat trying because our class must choose one man from many who are qualified. However, the Class of 1958 felt that one man was outstanding in possessing the above qualifications. Therefore, the Senior Class of 1958 is proud to include on its roll as Honorary President Dr. Yam-hin Louie.

The 1956 sophomores returned as '57's juniors to the tasks of the clinic floors. Some forty individuals braved Baltimore's heat to start early in the summer clinic. The advancing tide of progress has left a few new pebbles on the beach at the B.C.D.S.—a renovated clinic floor with "speedy" 8,000 revolutions per . . . partitions for privacy . . . a new centrally-controlled appointment system, "assuring you a chair when and where you want it."

Signs of our times: white jackets . . . "I don't mean this to be facetious" . . . well-staffed pedo clinic . . . If you drink, DON'T . . . "allziknow (with waving hands)" . . . Anybody seen Chevrolet Jackson lately ? ? ? . . . Cotton "swaaaaaabs" all over the place . . . sharp chisels and hatchets for a change.

With the June horizon looming close at this writing, we of the Junior Class can tell of many worthwhile experiences that have enriched our lives. Like all who pass through student days, we think respectfully of the past, lament today, and eagerly await the tomorrow when we shall attain our goals.

All behavior is purposeful, and everything at the B.C.D.S. has, if you search long enough, a purpose. Hence the reason why sophomore historians turn from the trite jokes and turn on the trite philosophy. This is the time for some serious reflections. Overnight our status will change from technicians to practitioners, and by some mysterious process, B.C.D.S. sophomores for over a century have been equipped with the knowledge and confidence to meet this challenge.

This is also the time to thank our instructors. Now we see that there was a method to your madness.

This is also the time to remember . . .

—"The climb to the lofty fifth floor
with total exhaustion in reaching the door.
— The hours that we spent with our eyes in the scope,
instructors' avowals that there was no hope.
— Yea, verily, let our thoughts not depart
from the rigid rules of restorative art.
— Outline, resistance, *et cetera* our goal
to the patient it's merely a helluva hole.
— How wise is the adage from out of the past,
'Don't count your crowns until they are cast."

"Where are you from?" "South Carolina ! !" . . . "How about you ? ?" Rhode Island ! !" . . . Yes, the War Between the States would have probably started anew anywhere but at the Dental School. Here there is no time to fight *The War*. The only battles contested are those of trying to carve that central incisor before the lateral incisor is due.

Here there is no time but that which brings individuals together in a fellowship unlike that which existed in college; here a unity—a oneness—is to be found, that of a common goal which will one day be realized.

Until that day there is but time to work to the best of one's ability, adding a little extra effort to that. Strangely enough, some extra hours are added to a day and there is time to go to an occasional dance; functions put on by the school's fraternities; or that once-a-week *blast* at the local emporium, where the trials and tribulations of the student are made known, publicly.

Yes, there is but time to be a Freshman.

GORGAS ODONTOLOGICAL SOCIETY

Membership in the Gorgas Odontological Society is open to those Juniors and Seniors who attain outstanding scholastic records. Near the first of each school year, invitations are extended to those Juniors who are in the upper 30 per cent of their class.

Formed in 1916 in honor of Dr. Ferdinand Gorgas, the Society affords its members many social and educational opportunities not enjoyed by other students.

In recognition of their membership, keys are awarded to the Juniors and certificates are awarded to the Seniors in the spring of each year. The final social function of the year is also held at this time.

Members of Gorgas are proud of their Society and hope for continued active participation in the future.

The Student Senate is composed of three representatives from each class: the president and a representative from each section. Throughout the year this organization endeavors to harmonize Student-Faculty relations and to consider any problems that arise within the student body. The contributions of the Senate to the welfare of the student body this year have been . . . establishment of orientation committee to welcome and guide freshmen on registration day . . . organization of student handbook . . . Christmas ceremony . . . maintenance of budget to administer the spending of student funds . . . publication of student directory . . . sponsorship of Golf, Table Tennis, and Softball Tournaments.

The Interfraternity Council is composed of representatives of our four fraternities and the president of the Student Senate.

As in previous years, this body had tried to coordinate all fraternity functions to the mutual benefit of all factions and the Dental School as a whole.

Along with the successful handling of the rushing season, the I.F.C. has administered the bowling and softball leagues, ping-pong and tennis tournaments, and the presentation of the Interfraternity Council Award to the senior student who has made the most important contribution to student activities.

SPORTS

This year the Student Senate Athletic Committee has enlarged its intramural program to include five sports. Softball and Bowling Leagues in addition to Golf, Ping-pong and Tennis Tournaments were offered. Trophies are to be awarded the respective winners at the year-ending Student Senate athletic banquet.

At this writing, none of the winners have been decided, but with the coming of spring and the Softball League, Psi Omega's Spikes must be considered the team to beat on the diamond. This senior team has remained unbeaten since their freshman year and have completed a string of thirty-seven straight victories in marching to two consecutive Professional School Softball Championships. Fast-balling Bill Wolf, an ex-Marine hurler, has yet to taste defeat while pacing the Spikes. The team, essentially the same throughout four years of play, includes the infield of Ed Spinelli at first, Bill Denison at second base, Bill Gannon, shortstop; Linn Tompkins at third and Bill Gaskill behind the plate. Bob Beckelheimer, John Rushton, Roger Zelles, Dick Georgiades and Manager Bo Menton handle the outfield chores.

The Ping-pong and Tennis Tournaments are well under way and with enthusiasm running high any one of the numerous contenders could emerge victorious. The golf finals put Psi Omega's Cy Sokale against the Zips' Ron Bauerle in the championship flight.

With the long bowling season drawing rapidly to a close, the Psi Omega team should remain atop the league standings. However, the onrushing second place Alpha Omega five is still in contention and must be considered a threat. Thus far Ben LiPira of the Zip team heads the loop's rollers with a 110 average.

Basketball enthusiasts headed by junior Bill O'Connor entered a team in a city unlimited league. Playing under the appropriate name of the Exposures, the boys from B.C.D.S. were in the running all the way and finished with a 7-4 mark. Ray Flanders was the top point-getter for the basketball-playing dentists and was ably assisted by O'Connor, Tom Meakem, Keith Lown, Dave McLane, John Raese and Bernie Morgan.

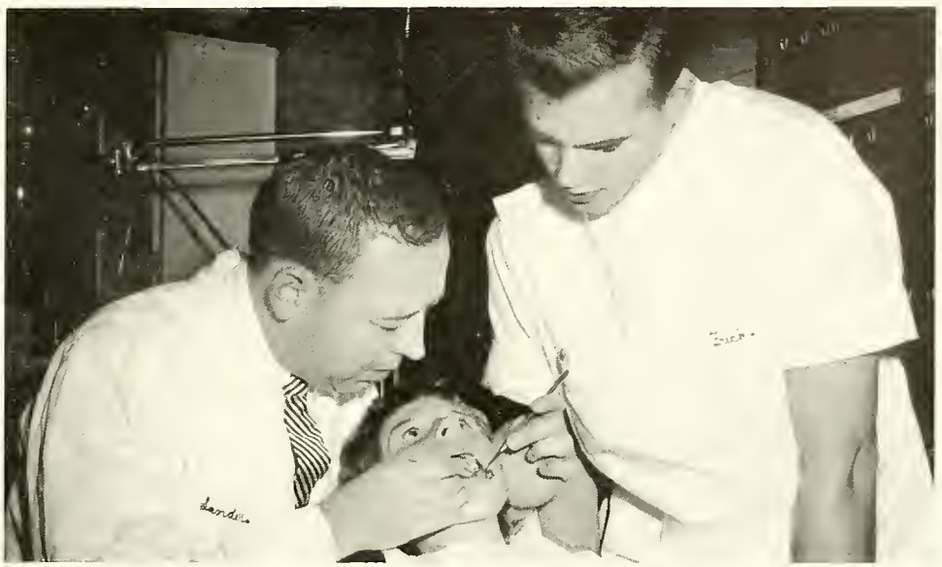
THE CLINICS

PEDODONTICS



Where do you want to do that buccal pit foil?

Hello darling. What blue eyes you have!

Getting too nice to be an instructor.

CROWN AND BRIDGE

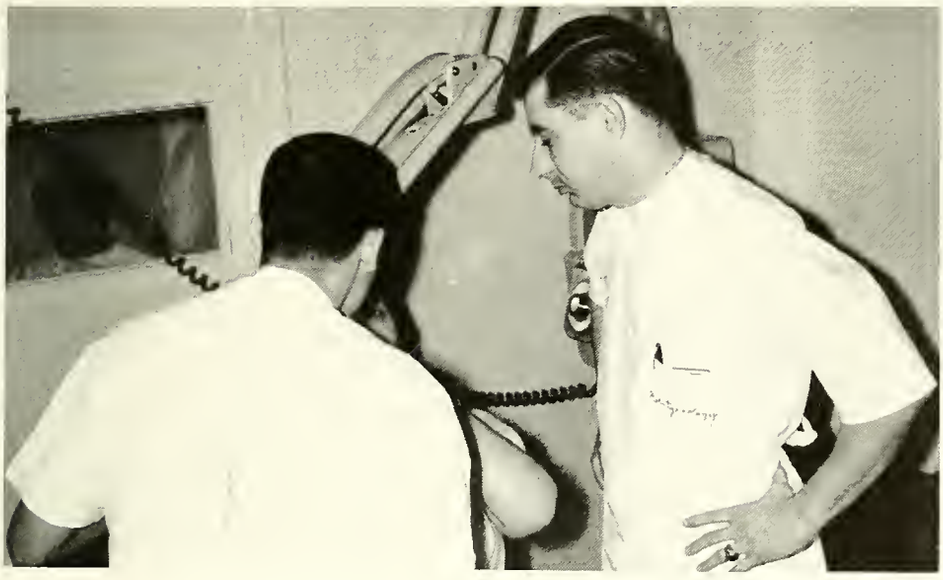
But Doctor Nuttall I just cemented that bridge.

Who says my Lincoln can't outdrag a Jag?

If you would find my glasses, I could tell you if they are parallel.

ROENTGENOLOGY

Now, that's a real cone cut!



Cough that film packet back up!

Now, if you bite my finger again I'll—

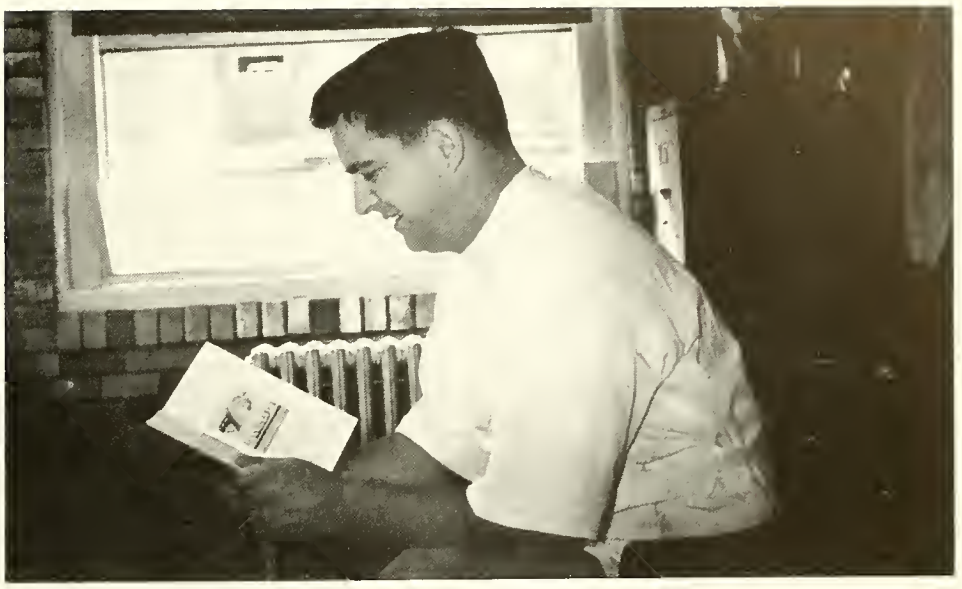
OPERATIVE

Yes-s, you are low in foils-s.

But doctor on this side it's beautiful.

Plepalation look like hot dog. When yo become dean then you make rules.

DENTISTRY



Everything goes by the book around here!

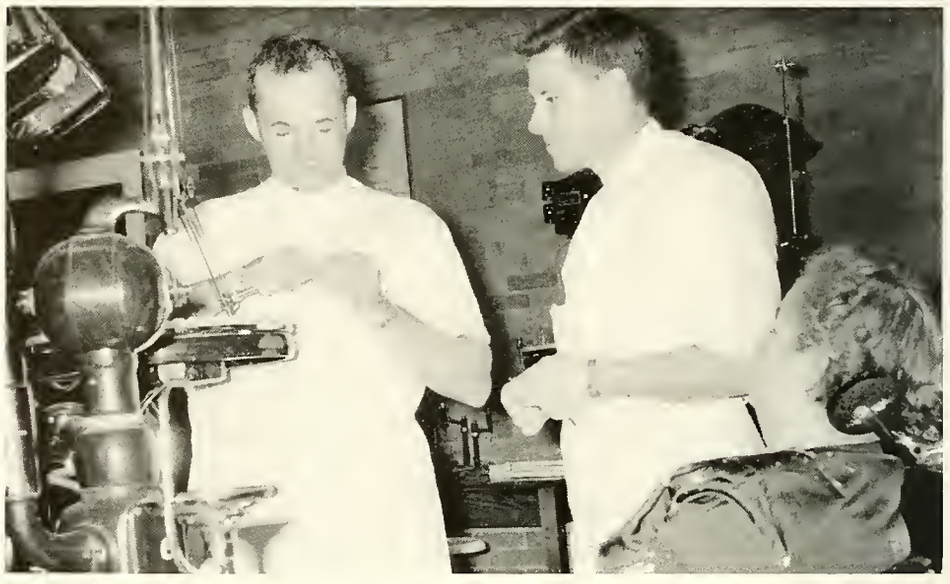
That's fine. Now let me have your sharp explorer.

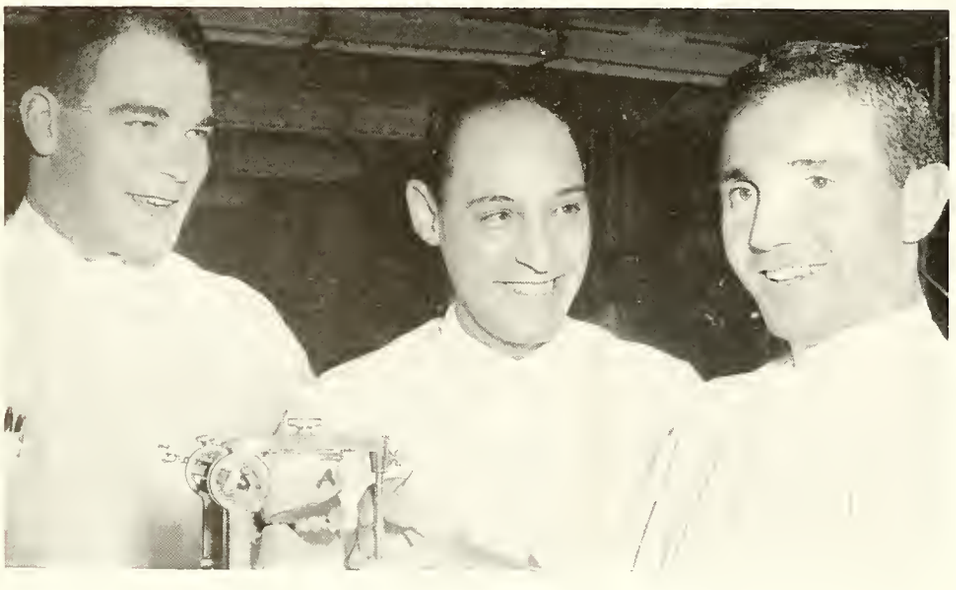
If you'll take off the rubber dam now, I'll check the prophy.

PROSTHETICS

Now, this simple apparatus is a surveyor.

Have her come back in three days.





Now, when I was a student—.

ORAL MEDICINE

Dr. Norris is on the floor.

What's behind that smile, Doctor, another treatment?

But, Doctor, I didn't use that kind of glasses when I did it.

ORTHODONTICS

Gennimen, this is a good face.

Have I ever demonstrated to you on how to mix Jeltrate?

Now, look closely at this case boys.

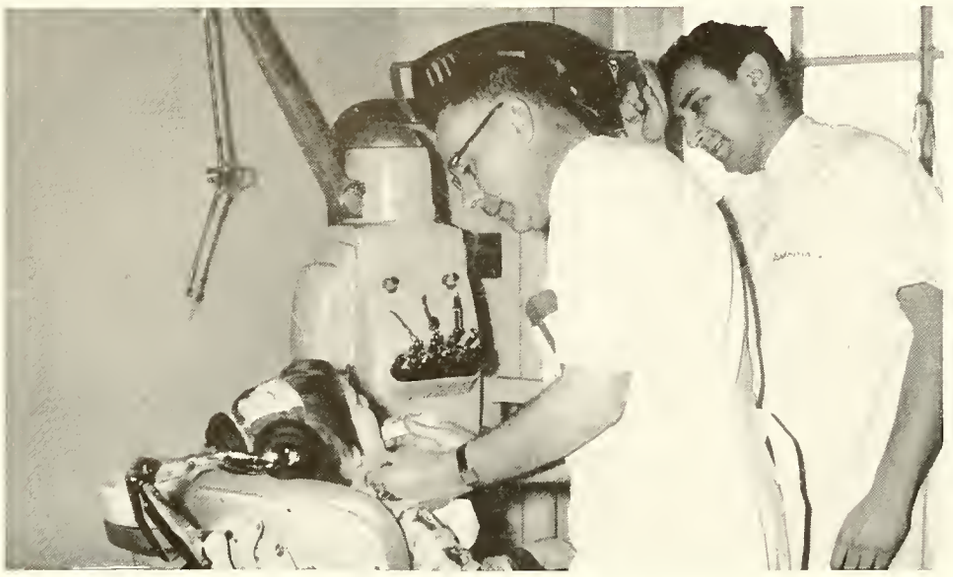
SURGERY

They don't take X-rays like they used to.

This is Joe. I want 4 seats on the 40-yard line.

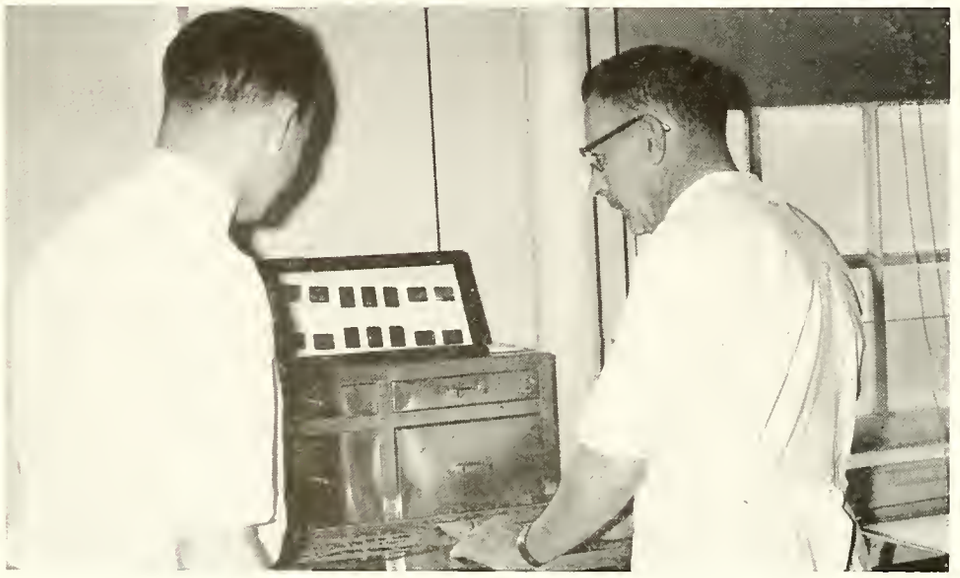
Are you sure you took out the right tooth?

DIAGNOSIS



No, he's too young for foils.

Who's got it, you or the patient?



Any questions?

We want to see this patient again, again and again.

Make it into a full crown, with a facing.

Gee whiz, fella.

Do it over.

Yep, you've exposed it.

They're fine, but you missed centric.

A Few Words About

COLUMBIA DENTOFORMS . . .

From a humble start 38 years ago, Columbia Dentoforms have played an increasingly important role in dental education. Today, every dental student in the United States and Canada "cuts" his first teeth on Columbia Dentoforms, for we supply Dentoforms to every dental college in the United States and Canada, as well as in many other lands.

In these 38 years, there have been many improvements and additions to Dentoforms to meet the ever more exacting demands of teachers. Today, Dentoforms number more than a thousand and present conditions that the student will encounter in practice. And in graduate years, Dentoforms continue to help clinicians in postgraduate education and to help the busy practitioner in his endless task of patient-education by showing the better dentistry he seeks to give.
